

Precise  
Buildings, LLC

For the Finest in Amish Craftsmanship  
and Custom Design.

Specializing in Horse Barn Construction and Restoration.

# NEW BUILDINGS

Located in Kinzers, Pa., in the heart of Lancaster County's Amish Country, Precise Buildings, LLC is your premier full-service construction company specializing in custom horse barns and restoration work. With over 25 years of experience, our Amish construction team will travel to your location to build your horse barn, riding arena or other structures for your equestrian facility.

We understand that the construction process can be a complex undertaking with a lot of decisions to be made. We will be by your side throughout the entire process to save you time, money and headaches. From the initial concept to the finishing touches, we will handle your building project with care and professionalism.

# INTERIORS

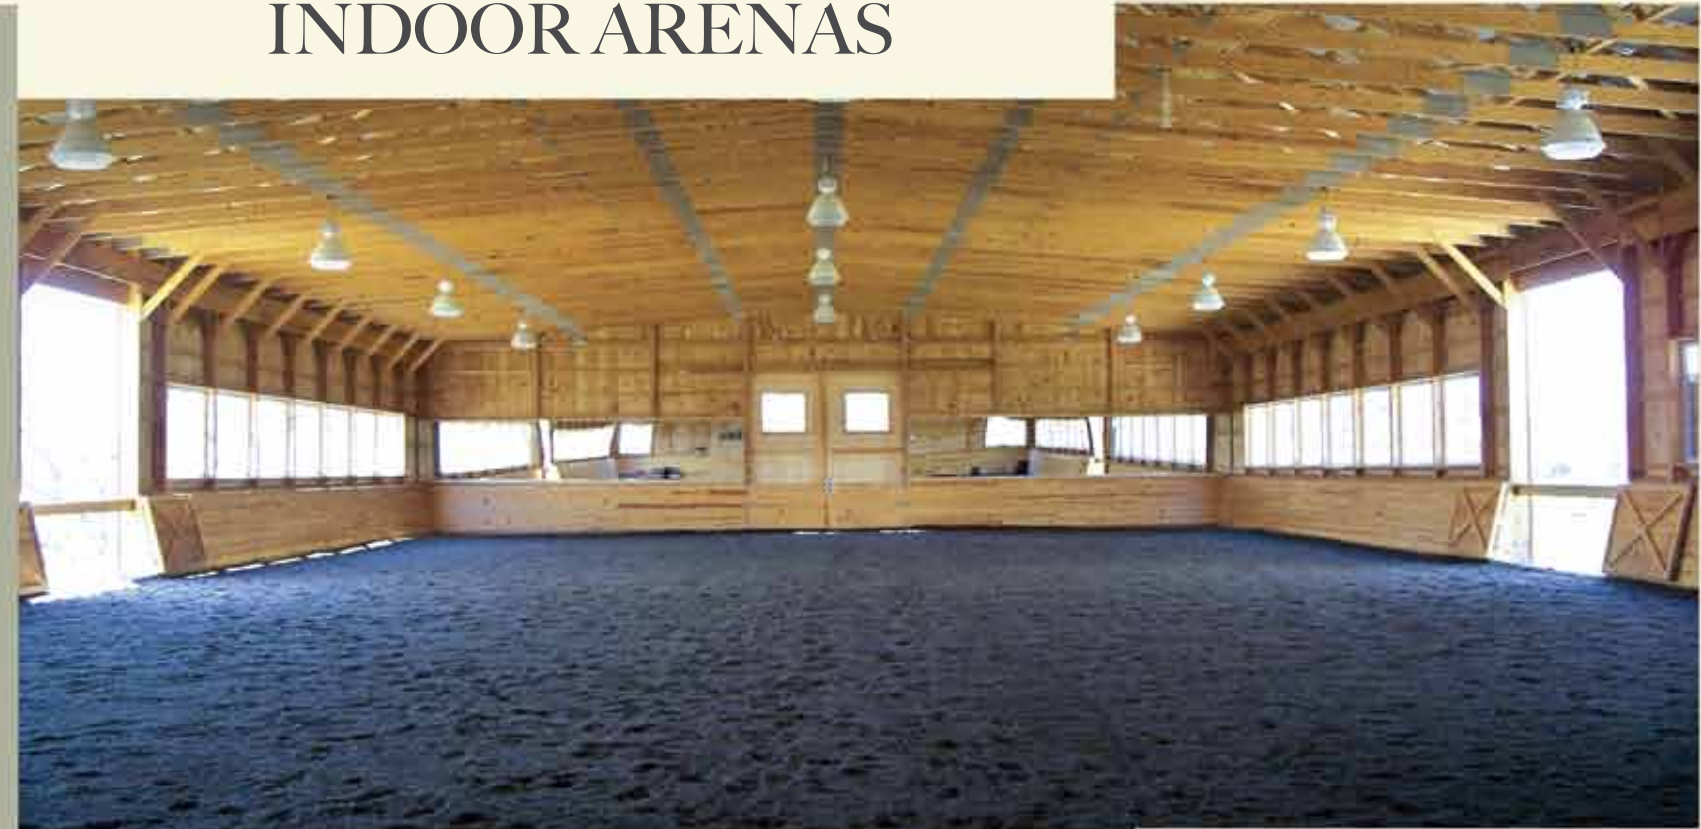

Our skilled Amish craftsmen will pay close attention to the fine details of your project and work with you to design a functional and beautiful interior that is safe and comfortable for your equine friends. We also want to provide you with a place where you will enjoy working and riding.

At Precise Buildings, LLC we are committed to excellence, offer outstanding service and deliver superior quality. We utilize a combination of skilled Amish craftsmanship and innovative engineering and design. Whether you are a home owner looking for a custom horse barn or a business owner looking for a turn-key project, Precise Buildings is the ideal solution.

# INDOOR ARENAS

Our team of highly skilled designers and craftsmen will build you a superior indoor arena that provides protection from extreme weather conditions while offering you the flexibility and freedom to ride or show anytime of the day. Since riding arenas can vary in function and design, we will work closely with you to design one that is durable while meeting the unique needs of horses, with special attention paid to ventilation and lighting requirements.

# RESTORATION

Our Amish craftsmen are experts in barn renovations from small farms to sprawling equestrian facilities. We have performed restoration work at the historic Sagamore Farms in Glyndon, Baltimore County, Maryland. One of the premier facilities in the industry, the farm was responsible for breeding some of the greatest horses in thoroughbred racing history including the “gray ghost” Native Dancer. Since its heyday, the barn has fallen into disrepair. The barn was purchased by its current owner in 2007, and Precise Buildings, LLC was brought in to help with the restoration of the farm.

When it comes to barn restoration, our expertise and passion for restoring aging and deteriorating barns is unsurpassed. Whether you need a new roof, new siding, structural repair or retrofitting to accommodate a new use, we will transform your old barn into a thing of beauty and utility once again.

The background of the entire page is a faded, light-colored image of a building's roofline. At the top center, there is a weather vane featuring a horse in mid-gallop. Below the horse is a traditional four-pointed weather vane with the letters 'W', 'E', 'S', and 'E' on its arms. The building below has a multi-sided roof with several windows visible.

We serve Pennsylvania, Maryland, New Jersey, Delaware,  
New York, Connecticut, Virginia, West Virginia and surrounding areas.
